

Batería IV

A SPANISH PARALLEL OF WOODCOCK-JOHNSON IV

Batería IV

An efficient, effective assessment of cognitive abilities and academic skills for Spanish Speakers

The **Batería IV Woodcock-Muñoz (Batería IV™)** provides a sound assessment of cognitive abilities and academic skills with updated norms and content that reflects current Spanish linguistic conventions and culture.

The **Batería IV** reports on a variety of scores that utilize the same Cattell Horn Carroll (CHC) framework as the **WJ IV**, offering the same ease of use and flexibility that examiners need to accurately evaluate learning problems for Spanish speaking children and adults. All scoring is completed via the web-based **Riverside Insights Assessment Management System (RAMS)**, accessible for free with a test record purchase.

As the parallel Spanish version of the **Woodcock-Johnson IV (WJ IV)**, **Batería IV** also allows for a direct comparison of a student's skills in Spanish and English when used in conjunction with the **WJ IV**.

Why Test with Bateria IV?

- A single, comprehensive testing suite with solutions for early childhood through adult and senior testing in Spanish
- Updated and expanded interpretive model includes Gf-Gc Composite for comparison to measures of academic achievement and cognitive processing
- New domain-specific scholastic aptitude clusters that allow for efficient and valid predictions of academic achievement

Head to riversideinsights.com/bateria-iv to learn more!

The Bateria IV™ represents a significant revision of Bateria III®

Goals of the New Edition

- Design a comprehensive assessment system to evaluate individuals whose native language is Spanish
- Facilitate an exploration of strengths and weaknesses across cognitive, linguistic, and academic abilities
- Enhance diagnostic capabilities by focusing on describing cognitive performance and understanding the nature of learning problems
- Increase the ease and flexibility of use for examiners
- Reframe variation and ability/achievement comparison procedures
- Go beyond CHC theory as conceived in the **Bateria III**
- Highlight important narrow abilities and consider cognitive complexity of tasks

Modified Tests

Two of the **Bateria III** tests were modified in the **Bateria IV**.

- **Visualization** (composed of two subtests):
Spatial Relations and Block Rotation
- **Oral Vocabulary** (composed of two subtests):
Synonyms and Antonyms

Four New Tests

Bateria IV contains four new tests.

- Phonological Processing
- Nonword Repetition
- Letter-Pattern Matching
- Verbal Attention

Batería IV

The Cognitive Battery

(Pruebas de habilidades cognitivas)

The Cognitive Battery includes 14 tests and 15 clusters. Use it to accurately pinpoint learning problems in native Spanish speakers, as well as measure the most contemporary specifications of CHC theory.

- Comprehension-Knowledge (Gc)
- Fluid Reasoning (Gf)
- Short-Term Working Memory (Gwm)
- Cognitive Processing speed (Gs)
- Auditory Processing (Ga)
- Long-Term Storage and Retrieval (Glr)
- Visual Processing (Gv)

			Cognitive Composites			CHC Factors							Narrow Ability and Other Clinical ClustersTests				
			Habilidad intelectual general	Habilidad intelectual breve	Gf-Gc combinado	Comprensión-conocimiento (Gc)	Razonamiento fluido (Gf)	Memoria de trabajo a corto plazo (Gwm)	Velocidad de procesamiento cognitivo (Gs)	Procesamiento auditivo (Ga)	Recuperación a largo plazo (Glr)	Percepción visual-espacial (Gv)	Razonamiento cuantitativo (RQ)	Destreza numérica (N)	Rapidez perceptual (P)	Vocabulario (VL/LD)	Eficiencia cognitiva

■ Tests required to create cluster listed.

□ Additional test required to create an extended version of the cluster listed.

¹This is a single measurement of this ability.

Batería III COG vs. Batería IV COG Comparison

What's New in the Pruebas de habilidades cognitivas

- Utilizes a single test book
- Includes 14 tests, six of which are new or modified from the previous edition
- Offers online scoring and reporting capabilities
- Provides a co-normed assessment with **Batería IV Pruebas de aprovechamiento**
- Facilitates effective evaluations of gifted and talented students
- Six new clusters have been added and the composition of each cluster has been revised to increase cognitive complexity
- Partial credit scoring and the need to establish basals and ceilings within item groupings have been eliminated to streamline test administration
- A strong emphasis has been placed on a core set of tests (tests 1–7)
- Specific tests from **Batería III** and the **WJ IV Tests of Oral Language** can be administered to supplement the evaluation

	28. Block Rotation	28. Rotación de bloques	
	29. Sound Patterns – Music	29. Configuración de sonidos – Musical	
	30. Memory for Names – Delayed Recall	30. Memoria diferida – Memoria para nombres	
	31. Verbal Comprehension – Bilingual	31. Comprensión verbal bilingüe – Español/inglés	

Batería IV

The Achievement Battery

(Pruebas de aprovechamiento)

The Achievement Battery includes 13 tests and 17 clusters. Use it to screen, diagnose, and monitor progress in reading, writing, and mathematics achievement areas. Cross-Domain Clusters include:

- Academic Skills
- Academic Fluency
- Academic Applications
- Brief Achievement
- Broad Achievement

			Reading					Mathematics				Writing			Cross-Domain Clusters				
			Lectura	Lectura amplia	Destrezas básicas en lectura	Comprensión de lectura	Fluidez en la lectura	Matemáticas	Matemáticas amplias	Destrezas en cálculos matemáticos	Resolución de problemas matemáticos	Lenguaje escrito	Lenguaje escrito amplio	Expresión escrita	Destrezas académicas	Fluidez académica	Aplicaciones académicas	Aprovechamiento breve	Aprovechamiento amplio
Batería IV APROV Battery	APROV 1	Identificación de letras y palabras	■	■	■										■			■	■
	APROV 2	Problemas aplicados						■	■		■						■	■	■
	APROV 3	Ortografía										■	■		■			■	■
	APROV 4	Comprensión de textos	■	■		■											■		■
	APROV 5	Cálculo						■	■	■					■				■
	APROV 6	Expresión de lenguaje escrito										■	■	■			■		■
	APROV 7	Análisis de palabras			■														
	APROV 8	Lectura oral					■												
	APROV 9	Fluidez en lectura de frases		■			■									■			■
	APROV 10	Fluidez en datos matemáticos							■	■						■			■
	APROV 11	Fluidez en escritura de frases											■	■		■			■
	APROV 12	Rememoración de lectura				■													
	APROV 13	Números matrices									■								

■ Tests required to create cluster listed.

Additional clusters can be obtained by administering tests from the Batería IV along with Spanish-language tests from the **WJ IV Tests of Oral Language**:

- Vocabulary
- Listening Comprehension
- Oral Language

Batería III APROV vs. Batería IV APROV Comparison

What's New in the Pruebas de aprovechamiento

- A single test book
- The elimination of audio-recorded tests
- New norms
- Online scoring
- Qualitative Observation checklists for Tests 1–11
- Data on peer-based comparisons
- Co-normed with Batería IV Pruebas de habilidades cognitivas

Four New Tests

- Lectura oral/Oral Reading
- Rememoración de lectura/Reading Recall
- Expresión de lenguaje escrito/Written Language Expression
- Numeros matrices/Number Matrices

Five New Clusters

- Lectura/Reading
- Fluidez en lectura/Reading Fluency
- Lenguaje escrito/Written Language
- Matematicas/Mathematics
- Aprovechamiento/Brief Achievement
